# How To Create A Lace Braid

2016 has been all about the braid. The world has moved from the regular old plait our parents used to do and we've gone to new heights, exploring this wonderful world of braids. One of our personal faves is the lace braid, so we've put together an easy-to-follow tutorial on how to get this look. It's just so pretty and suited for any casual or smart-casual event - and it looks sophisticated enough that everyone will be asking about your hairstylist.

## Step 1: Prep your hair

Braids involve a lot of pulling and tugging on your hair so you want your hair to be strong and protected. For this we recommend you wash your hair with the TRESemmé Platinum Strength Shampoo and Deep Treatment Conditioner.

## Step 2: Begin braiding

Now that your hair is clean and dry, make a side parting in your hair all the way to your crown area. Take a small section from the front of the hair and separate it into three equal pieces, ready to braid. Pass the bottom piece of hair over the middle piece, and then the top piece goes over the middle piece. Repeat two or three times. Take another piece of hair from next to where you are braiding, and add it to the braid. Repeat this step. Remember that the difference between this lace braid and a regular braid is that with this braid you add in sections of hair from the top of your head (next to your parting). Repeat this step until you reach the end of your parting.

## Step 3: The end product

Continue the braid as a regular braid until you reach the end of your locks, and tie it off with a small elastic band.

To tame any flyaways, we recommend you use the TRESemmé Firm Hold Spray. It will do the job while keeping your look natural.
